

DANISH PATENT AND TRADEMARK OFFICE

New Technology and Business

How can I use the Danish Patent and Trademark Office, when I would like to buy and use technologies developed by others in my business?

First of all, give us a call. We would love to talk to you about which opportunities you have in using patents, trademarks and designs. For example,

- How can I avoid violating the rights of others?
- Can I further develop the technology - and how can I claim the rights for my invention?
- When I collaborate with others, who has the right to the invention?
- To whom can I sell my technology?

Who is the Danish Patent and Trademark Office? We are the authority, issuing rights on patents, designs and trademarks. We are part of the Ministry of Industry, Business and Financial Affairs.

But start by giving us a call on 43 50 83 01
