OUR SERVICES

PATENTS

Your great ideas and innovations can become an exclusive right and give you a head start worth millions if a patent is granted.

TRADEMARKS

Register your trademarks to secure a strong brand and reap the financial benefit from your distinctive goods and services.

DESIGNS

Brilliant designs should mean brilliant results for their owners. Protect your designs and they are key instruments in your branding strategy.

LEGAL

To keep their value, IP rights need to be enforced. You get the best result with a combination of legal experience and technical specialist knowledge.

CYBER SECURITY

Knowledge and information are the most valuable assets of a company and therefore they need government as a part of your risk management.

SOFTWARE

In a world of digitalization the development of new technology, software and platform solutions is where you can differ from your competitors.

DIGITAL BRANDS

We help to protect your company's name and trademarks to ensure that your digital portfolio aligns up with your current marketing strategy.

IP STRATEGY

Deciding on an IP strategy is of great importance, but only if you combine that with a solid plan for implementing the strategy.

BUSINESS SERVICES

Zacco's 360° perspective on IP and a world-class IT platform enables our IP experts to professionally handle all aspects of IP formalities
